**Notes:**

K. Include all other Income, such as absorption account surpluses (for example plant and labour absorption accounts). Please include sub-total of all other income in the first row and then a breakdown in separate rows below.

- L. State the gross cost of undertaking minor capital works that have not been capitalised and the annual depreciation charges of all major schemes that have been capitalised. You should also include a fair proportion of the support costs directly associated with delivery of the schemes.
- M. State the total precept demanded for the year as properly issued by the Environment Agency, in accordance with section 141 of the Water Resources Act 1991. Providing that the precept has been properly issued as before stated it should always be included here, even when the Board has appealed against the amount of contribution, in accordance with section 140 of the Water Resources Act 1991. Where the Board knows with certainty the outcome of any such appeal, it should also include the appropriate accrual/prepayment.
- N. State all costs associated with the maintenance of watercourses, meaning work associated with open channels, pipelines, culverts, bridges, etc. Plant, vehicle and labour charges should include a fair proportion of the overheads such as depot/workshop costs, employment on-costs, insurances and depreciation, etc. You should also include a fair proportion of the support costs directly associated with delivery of the maintenance programme. Please do not include electricity or fuel costs as these are captured separately.
- O. State all costs associated with maintaining and operating the pumping stations, sluices and water level control structures. Plant, vehicle and labour charges should include a fair proportion of the overheads such as depot/workshop costs, employment on-costs, insurances and depreciation, etc. You should also include a fair proportion of the support costs directly associated with maintaining and operating the pumping stations, sluices and water level control structures. Please do not include electricity or fuel costs as these are captured separately.
- P. Include the cost of non-technical staff only, office accommodation, annual depreciation of office equipment that has been capitalised, minor office equipment that has not been capitalised, postages, telecoms', stationery, printing, advertising, auditing of accounts, general insurances and all other costs associated with supporting the organisation. Please note that this does not include support costs, which are directly associated with the delivery of front line services. Please do not include electricity or fuel costs as these are captured separately.
- Q. State all costs associated with the PSCA.
- R. State all costs associated with undertaking work for third parties. Plant, vehicle and labour charges should include a fair proportion of the overheads such as depot/workshop costs, employment on-costs, insurances and depreciation, etc. You should also include a fair proportion of the support costs directly associated with undertaking the rechargeable work.
- S. Include the cost of servicing any borrowing, in terms of bank/loan/hire purchase Interest payable.
- T. State all costs associated with undertaking works – capital or maintenance – that are likely intended to help enhance and/or conserve biodiversity. These costs are likely to be incurred in implementing actions set out in an IDB's Biodiversity Action Plan or other conservation actions. If possible, you should identify the overall costs and break them down into two groups: general across the whole IDB area, and SSSI specific areas (in implementing actions set out in SSSI Water Level Management Plans or SSSI River Restoration Plans). Please do not include electricity or fuel costs as these are captured separately.
- U. Include all other expenditure, such as a provision for bad/doubtful debts, write-offs, and absorption account deficits (for example plant and labour absorption accounts). Please include sub-total of all other expenditure in the first row and then a breakdown in separate rows below.
- V. For the disposal of assets, state the difference between any proceeds from the sale/disposal of the asset and the cost of the asset less accumulated depreciation.
- W. Total balance of developer fund year end.
- X. Unspent grant at year end.

## Section B: NOTES

### Guidance and Best Practice

Has your Board published **all** minutes of meetings on the website? In answering this question, this should apply to all the main Board meetings held in the year and any appropriate meetings the Board has held with external stakeholders.

### Board membership and attendance

When referring to **elected members** of the Board, this relates to the number of landowners/drainage rate payers that are elected to the Board.

When referring to **appointed members** of the Board, this relates to the number of members appointed by the local authorities to represent the local council taxpayers.

When referring to mean average number of elected and appointed members in attendance at meetings at each board meeting – **this should be expressed as a number of attendees** and not as a percentage attendance.

With regard to elections, under Schedule 1 of the Land Drainage Act 1991, elected members should hold office for three years, at which point a further election is held. When elections are held, they should comply with the requirements under Regulation 28 of the Land Drainage (Election of Drainage Boards) Regulations 1938 – to advertise and notify local stakeholders accordingly.
